HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

Appreciation of peer reviewers for 2014

Thorsten W. Becker, Jay Bass, Janne Blichert-Toft, Lou Derry, Cin-Ty Lee, James Tyburczy, Derek Vance, and Yusuke Yokoyama

Abstract The editorial and scientific publishing process relies on the sustained work of volunteer reviewers, and evaluating the interdisciplinary and broad interest papers published in G-Cubed can be a particular challenge. As Editors and Associated Editors, we are therefore hugely appreciative of the efforts of our reviewers, and would like to thank and acknowledge them in this editorial. G-Cubed published 257 manuscripts out of 431 submissions in 2014, and for this, we were able to rely on the efforts of 710 dedicated reviewers. Their names are listed below; in italics are those 27 who provided three or more reviews. A big thank you from the G-Cubed team!
